SUMMARY

Data Analyst with hands-on experience in SQL, Excel, Power BI and Python, focused on data cleaning, transformation, reporting and visualization. Built multiple end-to-end analytical projects involving business KPIs, automated reporting and dashboards. Strong in Power Query, DAX, relational data modeling and Python-based analysis using Pandas and Matplotlib. Detail-oriented and process-driven, with the ability to translate raw data into clear, actionable insights. Seeking entry-level Data Analyst, Business Analyst or Reporting Analyst roles.

SKILLS

Data Analysis & Visualization: Power BI (DAX, KPIs, Slicers, Drill-through), Excel (Pivot Tables, Charts, Dashboards)
Programming Languages: Python (NumPy, Pandas, Matplotlib, Seaborn), SQL
Databases: PostgreSQL, SQL Server
Tools & Environments: Power Query (Excel & Power BI), SSMS, pgAdmin, Jupyter Notebook, VS Code, Azure Data Studio, ChatGPT & Perplexity (Generative AI Assistance), PowerPoint
Cloud & ETL Tools: Azure Data Factory, Azure Data Lake Storage, Azure SQL Database

PROJECTS

Financial Stability Analytics Engine for Coaching Institutes | Tools: Excel

- Built an Excel-based financial analytics model to simulate revenue stability for coaching institutes using installment-based fee structures.
- Designed structured datasets linking Student Master and Installment Schedule tables using Student IDs.
- Implemented formulas such as XLOOKUP, INDEX, LET, EDATE and IFERROR for automated installment tracking and overdue analysis.
- Developed KPIs including Collection Efficiency, Realization Rate, Overdue Intensity and Payment Delay metrics.
- Built an interactive dashboard with financial diagnostics and a strategy simulator for collection performance improvement.

Corporate Data Analysis & Reporting Tool using Python | Tools: Visual Studio Code

- Developed a Python-based data analysis tool to clean, aggregate and summarize CSV/Excel datasets using Pandas.
- Implemented Group By aggregations and automated report exports in Excel and CSV formats.
- Created business visualizations using Matplotlib (bar, line, pie charts).
- Simulated real-world reporting workflows through an interactive, user-driven analysis interface.

Retail Sales Analysis Dashboard | Tools: PostgreSQL, Excel, Power BI

- Normalized raw sales data into relational tables (customers, orders, products, order details) using SQL JOINs, CTEs and window functions.
- Performed data cleaning and transformation in Power Query and Excel (duplicates removal, data types correction).
- Created interactive dashboards in Excel (PivotTables, formulas, slicers, charts, macros).
- Developed Power BI dashboards with KPI cards, filters and multi-page drill-through for customer and time intelligence views.

- Applied DAX measures for Total Sales, Profit %, YTD, SPLY and YoY Growth to simulate business reporting workflows.

Covid-19 Data Pipeline using Azure Data Factory

- Built a scalable ETL pipeline using Azure Data Factory to ingest COVID-19 data from a public source.
- Stored data in Azure Data Lake and processed it into Azure SQL Database for reporting.
- Scheduled and monitored pipeline runs for data integrity and accuracy.

PROFESSIONAL EXPERIENCE

Associate Engineer | NOC (Network Operating Center) **February 2020 - March 2020**
Tata Communications Limited, Pune

- Monitored real-time network operations and resolved connectivity issues.
- Gained understanding of incident management and infrastructure monitoring.

TRAINING & CERTIFICATIONS

- **AI Powered Python Course** - Certified, Project based, January 2026 (Skill Course - ISO 9001:2015 Certified Platform)
- **Excel Formula Mastery Using AI** - Certified Live Workshop, November 2025 (Skill Course - ISO 9001:2015 Certified Platform)
- **Power BI Course** - Certified, Project based, July 2025 (Skill Course - ISO 9001:2015 Certified Platform)
- **SQL Course** - Certified, Project based, July 2025 (Skill Course - ISO 9001:2015 Certified Platform)
- **Excel for Data Analysis Course** - Project based, June 2025 (Skill Course - ISO 9001:2015 Certified Platform)

CIVIL SERVICES EXAMINATION PREPARATION 2019 - 2024

- Engaged in structured self-study covering analytical reasoning, current affairs analysis and extensive documentation.
- Developed discipline, research capability and written communication skills

EDUCATION

- **Bachelor of Engineering (Electronics & Telecommunication) |** Savitribai Phule Pune University
  Graduated: 2018 **|** Percentage: 70.6%
- **Diploma (Electronics & Telecommunication) |** Government Polytechnic, Amravati
  Completed: 2015 **|** Percentage: 80.53%

LANGUAGES

- English, Hindi, Marathi
