SUMMARY

Data Analyst with hands-on experience in SQL, Excel, Power BI and Python, focused on data cleaning, transformation, reporting and visualization. Built multiple end-to-end analytical projects involving business KPIs, automated reporting and dashboards. Strong in Power Query, DAX, relational data modeling and Python-based analysis using Pandas and Matplotlib. Detail-oriented and process-driven, with the ability to translate raw data into clear, actionable insights. Seeking entry-level Data Analyst, Business Analyst or Reporting Analyst roles.

SKILLS

Data Analysis & Visualization: Power BI (DAX, KPIs, Slicers, Drill-through), Excel (Pivot Tables, Charts, Dashboards)
Programming Languages: Python (NumPy, Pandas, Matplotlib), SQL
Databases: PostgreSQL, SQL Server
Tools & Environments: Power Query (Excel & Power BI), Microsoft SQL Server Management Studio (SSMS), pgAdmin 4, Jupyter Notebook, Visual Studio Code, Azure Data Studio, ChatGPT (Generative AI Assistance), PowerPoint
Cloud & ETL Tools: Azure Data Factory, Azure Data Lake Storage, Azure SQL Database

PROFESSIONAL EXPERIENCE

Associate Engineer | NOC (Network Operating Center) **February 2020 - March 2020**
Tata Communications Limited, Pune

- Monitored real-time network operations and resolved connectivity issues.
- Gained understanding of incident management and infrastructure monitoring.

PROJECTS

Financial Stability Analytics Engine for Coaching Institutes | Excel

- Built a financial analytics model to simulate revenue stability using installment-based fee structures.
- Designed relational datasets linking Student Master and Installment Schedule tables.
- Implemented advanced formulas including XLOOKUP, INDEX, LET, EDATE, IFERROR for automated tracking.
- Developed KPIs such as Collection Efficiency, Realization Rate and Overdue Metrics.
- Created an interactive dashboard with financial diagnostics and scenario simulation.

Corporate Data Analysis & Reporting Tool | Python (VS Code)

- Developed a Python-based tool using Pandas for data cleaning, aggregation and reporting.
- Implemented group-by operations and automated export to Excel/CSV.
- Built visualizations using Matplotlib for business insights.

Retail Sales Analysis Dashboard | PostgreSQL, Excel, Power BI

- Modeled relational datasets using SQL JOINs, CTEs and window functions.
- Performed data cleaning and transformation using Power Query and Excel.
- Developed interactive dashboards in Excel and Power BI with KPI tracking and drill-through analysis.

- Created DAX measures for Total Sales, Profit %, YTD, SPLY and YoY Growth.

COVID-19 Data Pipeline | Azure Data Factory

- Built an ETL pipeline using Azure Data Factory for data ingestion from public sources.
- Stored data in Azure Data Lake and processed it into Azure SQL Database.
- Scheduled and monitored pipelines to ensure data reliability and consistency.

TRAINING & CERTIFICATIONS

- **AI Powered Python Course** - Certified, Project based, January 2026 (Skill Course - ISO 9001:2015 Certified Platform)
- **Excel Formula Mastery Using AI** - Certified Live Workshop, November 2025 (Skill Course - ISO 9001:2015 Certified Platform)
- **Power BI Course** - Certified, Project based, July 2025 (Skill Course - ISO 9001:2015 Certified Platform)
- **SQL Course** - Certified, Project based, July 2025 (Skill Course - ISO 9001:2015 Certified Platform)
- **Excel for Data Analysis Course** - Project based, June 2025 (Skill Course - ISO 9001:2015 Certified Platform)

CIVIL SERVICES EXAMINATION PREPARATION 2019 - 2024

- Engaged in structured self-study covering analytical reasoning, current affairs analysis and extensive documentation.
- Developed discipline, research capability and written communication skills

EDUCATION

- Bachelor of Engineering (Electronics & Telecommunication) | Savitribai Phule Pune University
  Graduated: 2018 | Percentage: 70.6%
- Diploma (Electronics & Telecommunication) | Government Polytechnic, Amravati
  Completed: 2015 | Percentage: 80.53%

LANGUAGES

- English, Hindi, Marathi
